

If you are concerned about your pet's diet and over-all health...

Mulligan

YES!...

Mulligan really is 14 years old!

Hi, I'm Mulligan! I'm 14 years old and my Dad created Mulligan Stew. Sadly, all my siblings are gone, but I am still active & healthy. *Why?* I eat Mulligan Stew every day!

My name is Emma. Did you know L-Methionine helps increase urine acidification? By eating Mulligan Stew, my body is more resistant to urine crystals, which are caused by low acid levels in urine. Thank goodness for Mulligan Stew! Purrrrrrrrrr

The **ONLY** pet food on the market with a Patent-Pending for optimal whole body pet health !

Emma

- Try feeding Mulligan Stew for 1 week, as a complete diet. **OR...**
- Supplement your pet's daily diet with at least 50% Mulligan Stew each day.
- In 7 days, begin to see a softer coat, brighter eyes and increased energy.
- And, your pet will love the taste of Mulligan Stew. *Palatability is simply extraordinary!*

Receive a \$10 gas card* for letting us know how your pet performs on Mulligan Stew!

* Fine print...
